What is the Ashoka U Exchange?
The Ashoka U Exchange is a 3-day learning lab, testing ground, space for celebrating innovation, and spark for the collaboration of 700 of educators, students, and other higher education professionals from across the world.

It’s a home for creative problem solvers, learners, listeners, and visionaries. Despite our diverse roles, experiences, and background we share the vision: We must rewire our colleges and universities to enable, empower, and catalyze changemakers across our institutions.

The 2019 Exchange is designed to reinvigorate your work as a changemaker educator and connect you with a community of others who share your same passion and vision for a changemaker world.
